Do you like... paying 42% of your income in taxes, not knowing if your vote really counted, local governments being able to seize your personal property or not having a better candidate to vote for? These are some of the areas Libertarians have been working on for you.

Taxes

Florida Libertarians have local and statewide success in preventing many unnecessary tax increases. Libertarians believe you are overburdened with too many taxes that far outpace the income raises or inflation. The average American family pays 42% of their income in taxes alone. That includes many hidden and regulatory taxes such as phone

service, gas, hotels, as well as local property taxes, state and federal taxes. Libertarians want you to keep what you earn.

Protecting Your Rights & Freedom

America is a country founded on constitutional rights and freedom, yet they are under constant threat. Libertarians are vigilant fighters who protect human rights and freedom. Governments often overcompensate by passing overly restrictive laws (such as the Patriot Act) under false pretenses and before understanding what the true problems.

Protecting Property

Libertarians believe in the American dream to own your own home, but

because governments can seize your property through eminent domain Florida Libertarians have fought, won and prevented unjust land grab seizures.

Election Reform

For decades, Florida had some of the most unfair ballot access laws. Florida Libertarians were instrumental in changing these restrictive laws by helping win Revision 11, allowing more choices of Parties and Candidates. Libertarians questioned Touch-Screen voting and worked toward Election Reform, gaining another victory when Florida's Governor, Charlie Crist signed House Bill 537 to establish a paper trail for all votes cast in Florida elections.
